

Grey Eagle Mine
Superfund Site
Siskiyou County, California

Removal Action
Administrative Record Index

Released: 10/01/1998

FACT SHEET

Grey Eagle Mine Superfund Removal Site Siskiyou County, CA Administrative Record

The "administrative record" is the collection of documents which forms the basis for an agency's decision, in this case the selection of a response action at a Superfund site. Under Section 113(k) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA), EPA is required to establish an administrative record for every Superfund response action and to make a copy of the administrative record available at or near the site.

The administrative record must be reasonably available for public review during normal business hours. It should be treated as a non-circulating reference document, in order to allow the public greater access to the record and also to minimize the risk of loss or damage. Individuals may copy any documents contained in the administrative record, according to the copying procedures at the local repository.

The administrative record will be maintained at the local repository until further notice. Periodically EPA may send supplements and indexes which must be added to the administrative record.

Please address questions on this administrative record to:

Joe Taglang
Environmental Protection Assistant
U.S. Environmental Protection Agency
75 Hawthorne Street (SFD-6)
San Francisco, CA 94105
(415) 744-2317

If documents in the administrative record become damaged or lost during use, please contact the person listed above for replacement of documents.

INTRODUCTION

Grey Eagle Mine Superfund Removal Site

Administrative Record and Index

The documents contained in this administrative record file were used by the U.S. Environmental Protection Agency in identifying appropriate activities for use at the Grey Eagle Mine Superfund Removal Site in Siskiyou County, California

The index lists the documents in ascending chronological order with undated documents at the beginning. Each document has been assigned a unique identification number. The administrative record contains 41 documents.
